

WHAT SHOULD I DO

Scenario	Isolation/Quarantine	Return to school/work	Conditions for return to school/work
I have tested positive for Covid-19	Stay home for 5 days. Day 0 is the day you took the test OR the day your symptoms started.	Come back to school/work on Day 6 if: <ul style="list-style-type: none"> • You are fever free AND • If you have symptoms, your symptoms are resolving AND • You can consistently wear a mask for the next 5 days. If you cannot, stay home for another 5 days (i.e.10 days in total) 	If you can come back to school/work on Day 6, continue to wear a mask for 5 more days. Eat lunch in an area where 6 feet distancing can be achieved (in the lunchroom at elementary school or at an alternate location in SLMS or Penncrest) for the next 5 days.
I have symptoms consistent with Covid but no known exposure/close contact to someone who is Covid-positive	Stay home and schedule a Covid test	Return to school when you get a negative lab administered Covid Test AND your symptoms are improved. If you cannot get a Covid test, you can return to school on Day 6 if your symptoms have improved. Day 0 is the day your symptoms started.	N/A
I am vaccinated* and have been exposed/close contact to a Covid positive household or non-household individual AND I do not have any COVID symptoms	N/A	Come to school and wear a mask. Monitor for symptoms. If you become symptomatic, stay home and isolate for 5 days. Return to school on Day 6 (Day 0 is the <u>last</u> day you were exposed to the positive individual) if: <ul style="list-style-type: none"> • You are fever free and • If you have symptoms, your symptoms are resolving. • You can consistently wear a mask for the next 5 days. If you cannot consistently wear a mask, stay home for these 5 days (i.e.10 days in total) 	If you come to school/work, continue to wear a mask for 10 days after the last day of exposure Eat lunch in an area where 6 feet distancing can be achieved (in the lunchroom at elementary school or at an alternate location in SLMS or Penncrest) through Day 10
I am unvaccinated and have been exposed/close contact to a household member who is Covid positive.	Stay home for five days. Day 0 is the day you were <u>last</u> exposed to the positive individual in your home. **	Return to school on Day 6 if you do not have any Covid symptoms. Take a Covid test at the Test-to-Stay program the morning of Day 6. If you become symptomatic, stay home for 5 days after the start of symptoms. Students who do not participate in the Test-to-Stay program must stay home and quarantine through Day 7. They may return to school on Day 8. Day 0 is the day the student was <u>last</u> exposed to the positive individual in the home.	If you come back to school/work, continue to wear a mask for 5 more days. Eat lunch in an area where 6 feet distancing can be achieved (in the lunchroom at elementary school or at an alternate location in SLMS or Penncrest) through Day 10.
I am unvaccinated and have been exposed/close contact to an individual who is Covid-positive who is NOT a household member AND I do not have symptoms.	Stay home for five days. Day 0 is the day you were <u>last</u> exposed to the positive individual ** OR Participate in the Test-to-Stay program in lieu of quarantine	Come to school and participate in the Test-to-Stay Program. Test before school on the day closest to the day after the exposure, then on days 3 or 4, and on days 5 or 6. If you become symptomatic, stay home and isolate for 5 days. Students who do not participate in the Test-to-Stay program must stay home and quarantine until Day 5. They may return to school on Day 6. Day 0 is the day the student was <u>last</u> exposed to the positive individual in the home.	If you come to school/work, continue to wear a mask for 10 days after the last day of exposure Eat lunch in an area where 6 feet distancing can be achieved (in the lunchroom at elementary school or at an alternate location in SLMS or Penncrest) through Day 10.
<p>* You are considered fully vaccinated if you are less than 18 years old and it has been two weeks since the last dose of a primary series of a Covid-19 vaccine</p> <p>** If you were exposed to COVID-19 and had a lab-confirmed COVID-19 within the past 90 days, you do not need to quarantine as long as you remain symptom free</p>
